

Banded Peak School

2022/23 School Workbook At-A-Glance

Reach out to your child's teacher about your child's specific results.

This Year We Worked On:

- Gathering literacy and numeracy data to provide a baseline from which to target instruction and improve student learning.
- Developing greater intercultural empathy within our school
- Designing programs to improve student and staff mental health, wellbeing, and physical wellness

You Can Help By:

- Encourage regular reading and writing at home and practice real-world numeracy activities during family activities
- Demonstrating cultural empathy to your child and espousing the benefits of accepting diversity in the world

Next Year You Can Look Forward To:

- The introduction and implementation of a common language and consistent approach towards numeracy.
- Activities embracing the cultural diversity that exists at Banded Peak school
- A focus on PBIS (Positive Behaviour Supports and Interventions)
